STYLE CULTURE

First of all, thank you for being here, dear reader **Kicking-off your business is our business!**

Beltá & Frajumar as a manufacturer with experience of manufacturing processes since 1967, manages the internal resources for each of the projects that it deals with, working together with the client to ensure that the list of requirements and the delivery deadline are fulfilled according to contract.

Starting with the complete analysis of the list of needs for the project presented by the interior design professional, the company converts these ideas into reality: using space as a canvas, an imaginative and inspiring place where the opportunities are endless. To achieve all of this, the most advanced 3D simulation technologies are used. Not forgetting **the manufacture of prototypes and pilot rooms, where clients can check the quality of the finished product** to ensure total satisfaction.

En primer lugar, gracias por estar aquí, querido lector **impulsar su negocio es nuestro negocio!**

Beltá & Frajumar como fabricante y conocedor de los procesos de fabricación desde 1967, gestiona los recursos internos para cada uno de los proyectos que aborda, trabajando junto al cliente para asegurar que se cumpla según contrato el listado de requerimientos y el plazo de entrega acordado.

Partiendo del análisis completo del listado de necesidades y del proyecto presentado por el profesional del interiorismo, la empresa hace realidad las ideas más complejas: utilizando el espacio como un lienzo, un lugar imaginativo e inspirador en donde las oportunidades son infinitas. Para plasmar todo ello, se utilizan tecnologías de simulación 3D. Sin olvidar **la fabricación de prototipos y habitaciones pilotos, donde comprobar la calidad del producto terminado** para obtener la conformidad del cliente.

Elegant Solutions

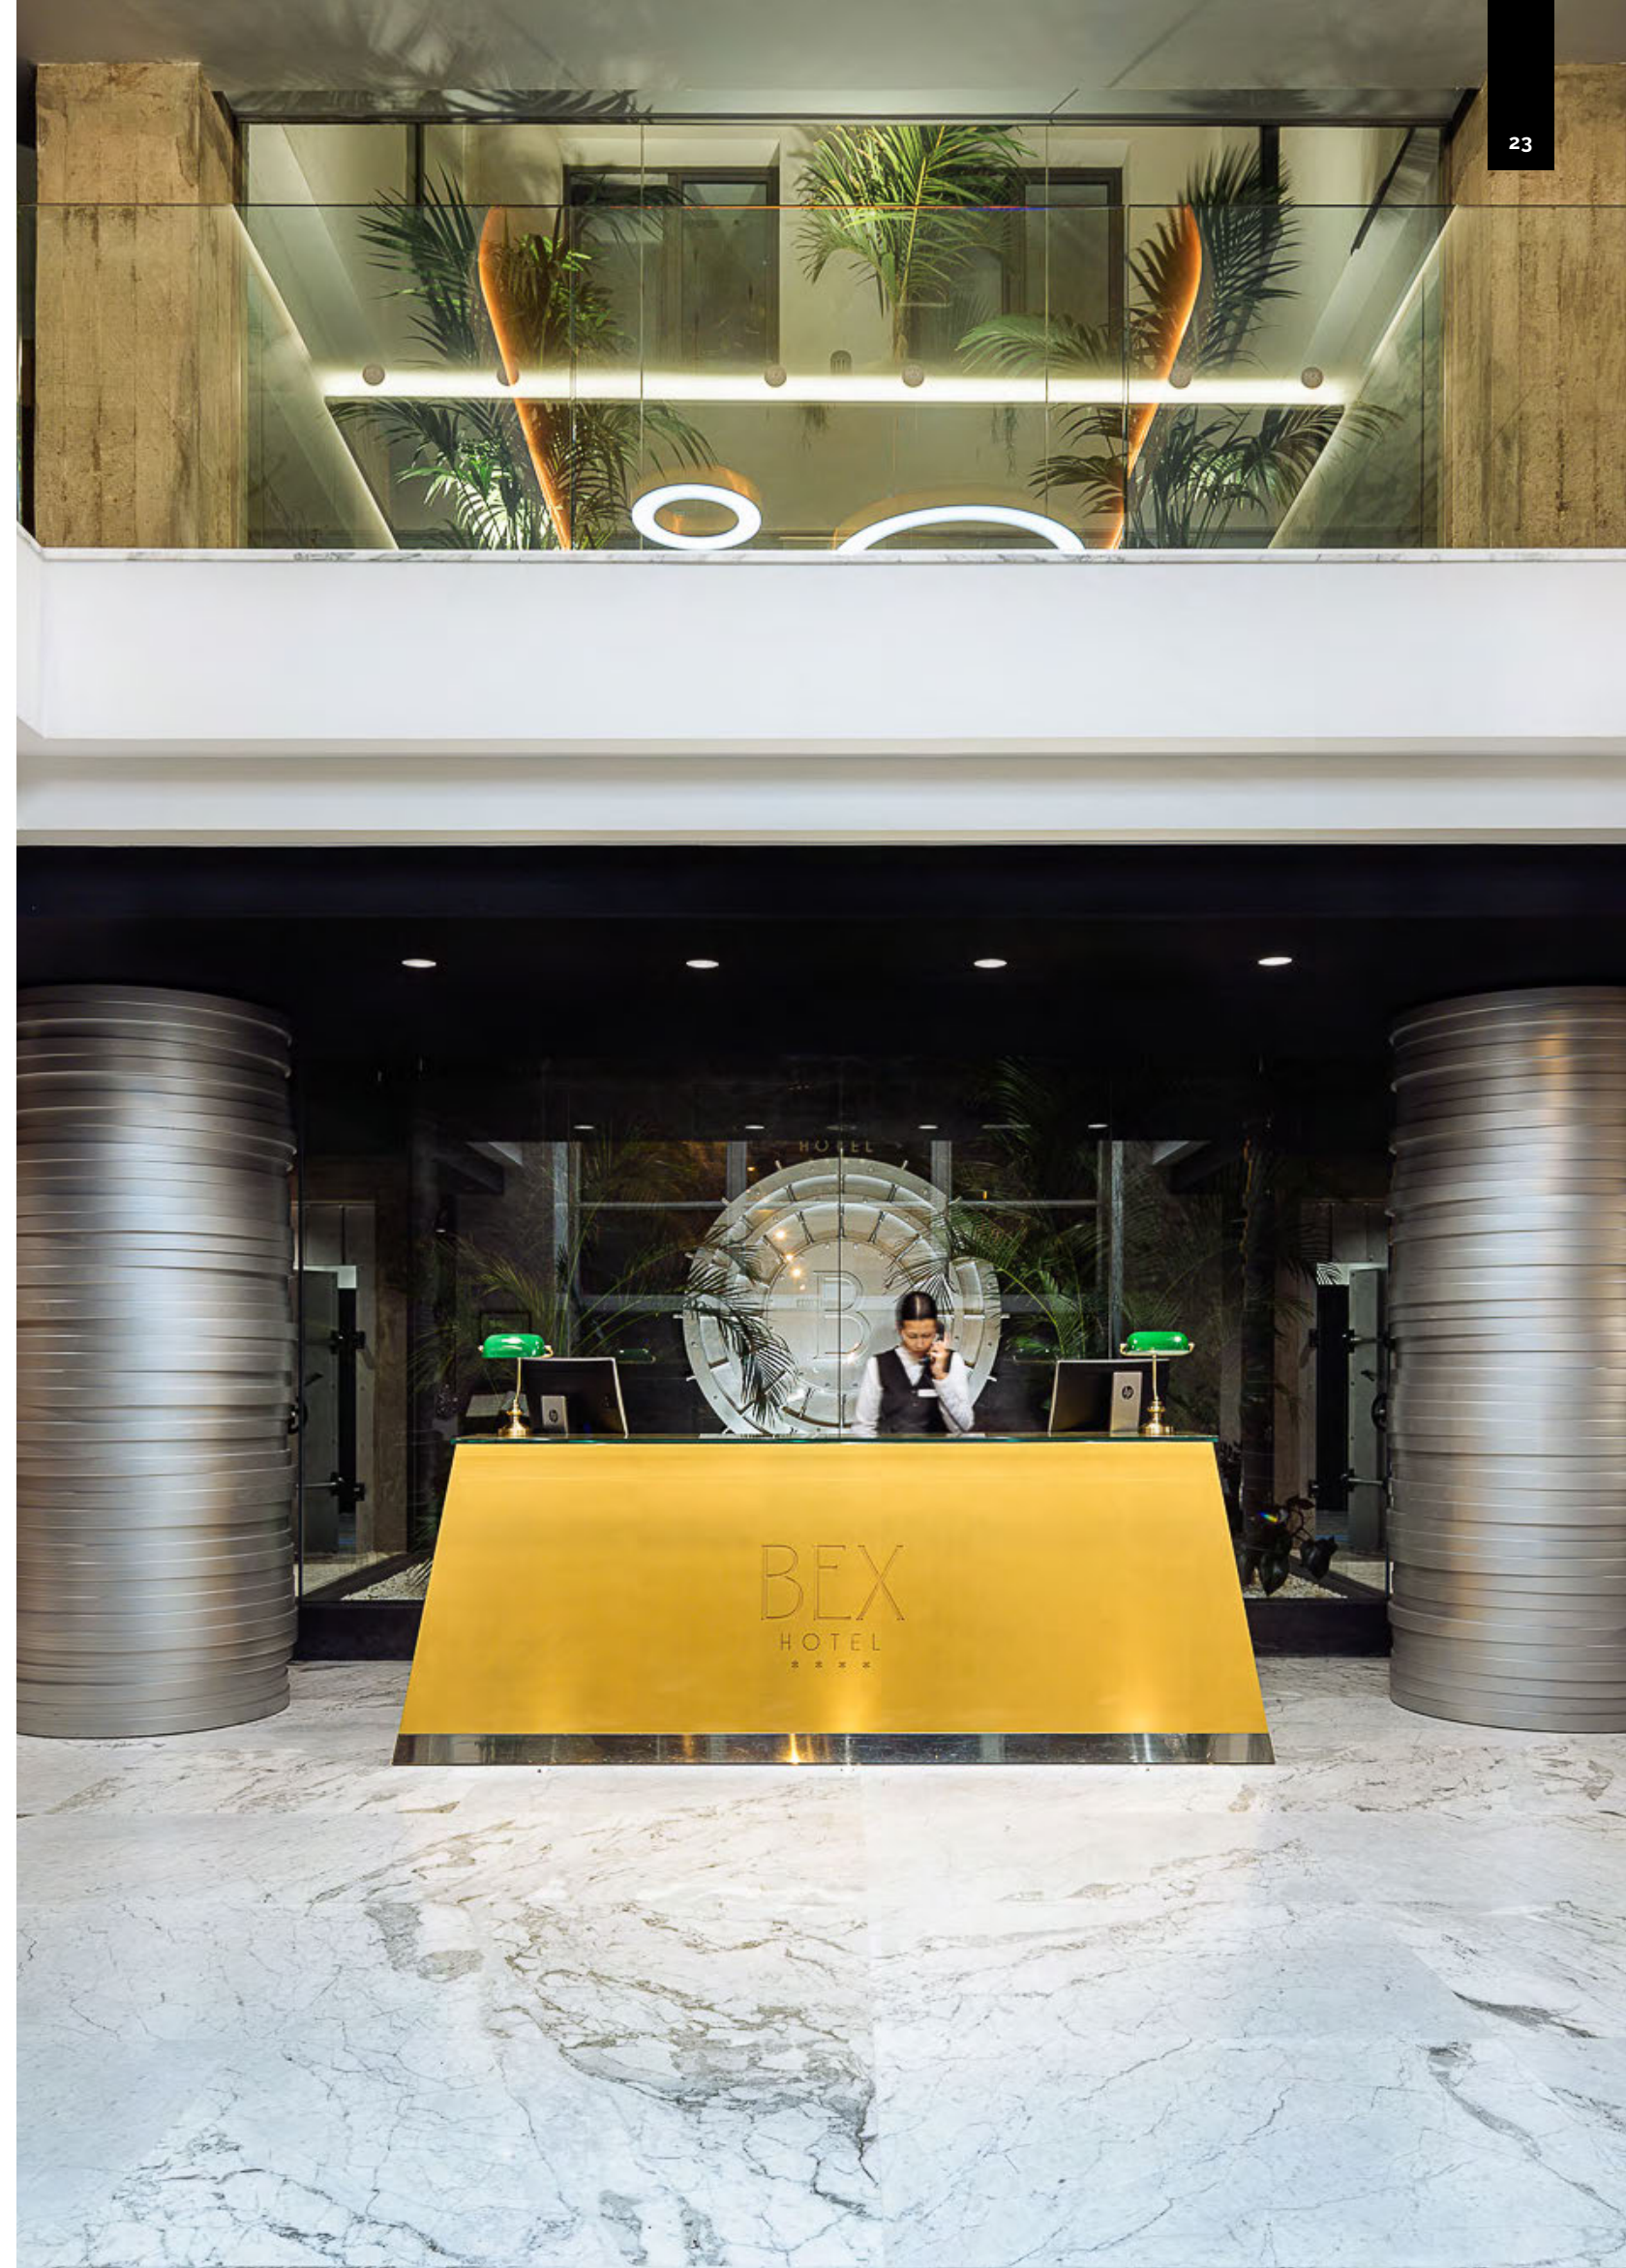

Art Deco and industrial inspiration in Las Palmas of Gran Canaria.
Art Decó e inspiración industrial en las Palmas de Gran Canaria.

Design Plus Bex Hotel 4* (Spain) is one of the up-to-date faces of the Palmas hotel scene. **A project from architect José Acosta Matos, and the creative and strategic interior design from Sergio Macías.** Like them, contributing to the well-being of guests is our motivation to provide solutions that optimize functionality and comfort, always providing the highest degree of quality and resistance.

The furniture for this project has been carefully chosen, with a design that goes hand in hand with precise attention to detail. Beltá & Frajumar, as a manufacturer of furniture, specialized in this type of hotel projects contributed with pieces such as the Adex armchairs for the hotel lobby, Tamo armchairs and the desk-trunk-closet that we found in the rooms.

Design Plus Bex Hotel 4* es una de las caras más frescas de la escena hotelera de las Palmas. **Un proyecto del arquitecto José Acosta Matos y el interiorismo creativo y estratégico viene de la mano de Sergio Macías.** Igual que ellos, contribuir al bienestar de los huéspedes es nuestra motivación para dar soluciones que optimicen la funcionalidad y el confort, siempre aportando el mayor grado de calidad y resistencia.

El mobiliario para este proyecto ha sido escogido cuidadosamente, con un diseño que va de la mano del cuidado por el detalle. Beltá & Frajumar, como fabricante de mobiliario especializado en este tipo de proyectos hoteleros, aportó piezas tales como las butacas Adex en el hall del hotel, las butacas Tamo y el escritorio-maletero-armario que encontramos en las habitaciones.

Unexpected Hospitality

SOPHISTICATED COMFORT

The design of the Bex hotel is firmly committed to the customization of the product and the concept of integral interior design. The goal of Beltá & Frajumar has been to offer solutions to the client that will allow creating a custom-built space tailored to his needs, covering the entire process, from the original idea to the final appearance.

Rooms filled with details, in which different materials like wood, steel and textile are combined. Pieces of great complexity carried out ad hoc for the project, which have not influenced the manufacturing and assembly times, complied perfectly with the establishment's opening dates.

El diseño del hotel Bex apuesta de manera decidida por la customización del producto y por el concepto de interiorismo integral. El objetivo de Beltá & Frajumar ha sido ofrecer soluciones al cliente que permitan crear un espacio customizado a la medida de sus necesidades, cubriendo todo el proceso, desde la idea original hasta el acabado final.

Habitaciones llenas de detalles, en los que se combinan diferentes materiales, madera, acero, textil. Piezas de gran complejidad realizadas ad hoc para el proyecto, que no han influido en los tiempos de fabricación y montaje, cumpliendo con las fechas de apertura del establecimiento.

Swarovski Kristallwelten Daniels Restaurant, Austria. Do you suspect that the word "Kristallwelten" has something to do with crystals? You got it right, because "the crystal worlds" created by the Austrian brand Swarovski are an amusement park for those of us who remain like children. Discover its lush world among the Austrian mountains. So tall, so disparate, so unique. Like the spoiled house embedded in this millennial world in which we seek to link again with our purest soul. An infinite enclave of beautiful architecture.

Swarovski Kristallwelten Restaurante Daniels, Austria. ¿Sospechas que la palabra "Kristallwelten" tiene algo que ver con cristales? Acertaste, pues "los mundos de cristal" que crea la marca austriaca **Swarovski** son un parque de atracciones para aquellos que seguimos siendo como niños. Descubre su exuberante mundo entre las montañas austriacas. Tan altas, tan dispares, tan únicas. Igual que la casa consentida encajada en este mundo milenita en el que buscamos volver a ligar con nuestra alma más pura. Un enclave infinito de preciosa arquitectura.

Círculo Gran Vía Hotel, Madrid

LUXURY EDITION

Círculo Gran Vía is a 4* hotel belonging to the exclusive signature Autograph Collection Hotels. Located in the heart of Madrid, this palace was the former home of the Trade and Industry Circle of the capital, hence its name.

The realization of the exclusive furniture for the rooms, was a challenge in the creation and completion of each and every one of the ideas generated by the team of interior designers. Ideas that contributed to the hotel's air of Nordic elegance, by its use of materials such as wood, wonderfully integrated into this palace of the early twentieth century and redesigned with exquisite care.

Casa Alberola Hotel, Curio Collection by Hilton, Alicante.
Interior Design by Nazaret Gil

LIFE STYLE

Casa Alberola Hotel, Alicante. The neoclassical building, after an exhaustive process of restoration and remodeling, has become a sophisticated hotel that preserves intact the essence of its history.

Luxurious exclusive rooms, bourgeois style, for which noble and original furniture and materials have been used, of exceptional character and exclusive details. The realization of furniture of all sorts for the rooms and common areas was a challenge when it came to materialize and execute each of the ideas generated by the architect Nazaret Gil. Ideas that give the hotel a transgressive touch with classic dyes to this emblematic building.

The Hotel Casa Alberola belongs to the Curio Collection brand of luxury boutique hotels endorsed by Hilton.

Casa Alberola Hotel, Alicante. Edificio neoclásico que tras un exhaustivo proceso de restauración y remodelación se ha convertido en un sofisticado hotel que conserva intacta la esencia de su historia.

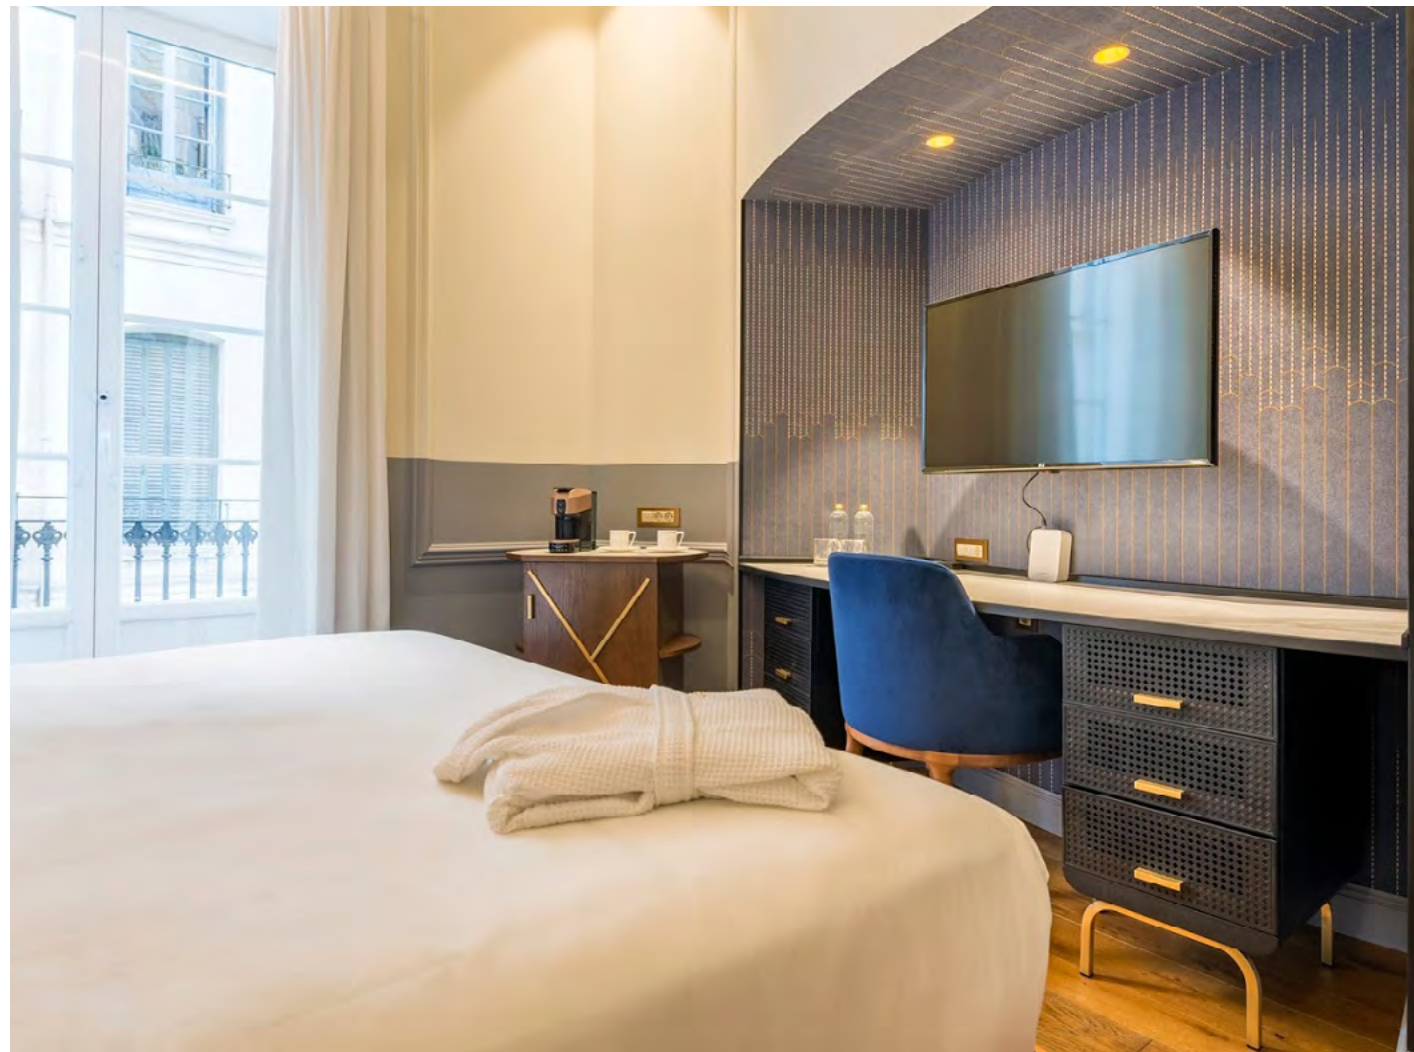

Lujosas habitaciones exclusivas, de estilo burgués, para las que se ha empleado mobiliario y materiales nobles, originales, de carácter excepcional y detalles exclusivos. La realización de mobiliario de todo tipo para las habitaciones y zonas comunes, supuso un reto a la hora de materializar y ejecutar cada una de las ideas generadas por la arquitecta Nazaret Gil. Ideas que aportan al hotel un toque transgresor con tintes clásicos a este emblemático edificio.

El Hotel Casa Alberola pertenece a Curio Collection marca de hoteles boutique de lujo avalados por Hilton.

Despite being a particularly complex interior design project, the result has been spectacular. The satisfaction of both the property and the creative team is the best guarantee. Bright spaces of palatial architecture, for which furniture from the Beltá & Frajumar collection and contemporary custom-made designs were used, all combined with great mastery.

A pesar de tratarse de un proyecto de interiorismo especialmente complejo, el resultado ha sido espectacular. La satisfacción tanto de la propiedad como del equipo creativo son el mejor aval. Espacios luminosos de arquitectura palaciega, para el que se utilizaron muebles de la colección Beltá & Frajumar y diseños contemporáneos fabricados a medida todo combinado con gran maestría.
