## Experience above all

These are comfortable, pleasant and resilient stools that have been specially designed to improve people's experience in shared spaces. The measurements of these stools were analyzed in detail to make them efficient.

## The essence of their charm

Their refined design, stripped down to the essence of what is strictly necessary, is completed with a range of 13 shades that allow you to use color to create very rich and striking projects. You can also customize the shades on demand.

## UNIT COLOR

## Designers

Stone Designs is a cross-disciplinary design studio. It is based in Madrid but works worldwide on projects for interior design or products. Working with Bōln after a special course on the Flexyskin technology, Stone Designs has designed the Sarek and Abisko collections: a modular system and a range of stools created with their own experience in designing interiors and heavy-duty shared spaces.
