La collection PIEM est inspirée dans le néoplasticisme hollandais, en hommage à son précurseur Piet Mondrian, et au concept géométrique. Elle a été développée avec une modularité simple et un style contemporain, tout en apportant des solutions collaboratives dans les espaces de travail avec des combinaisons créatives et originales, pour obtenir des zones de confidentialité, de concentration et de communication.

Источником вдохновения для создания коллекции PIEM стал голландский неопластицизм, как дань уважения своему предшественнику Питу Мондриану и концепции геометрии. Коллекция в современном стиле, состоящая из простых модулей, способствует созданию новых решений рабочих пространств с креативными и оригинальными комбинациями, создавая зоны уединения, концентрации и общения.
