

## Well being is the principle of everything

**S**leeping doesn't always mean resting. At Karibian Descanso, we know that inadequate rest can negatively affect your immune system, which is reinforced when we sleep. Lack of sleep can cause serious problems with memory and learning, stress, and cardiovascular disease.

Did you know that your mattress is essential for good health? Although we spend approximately 23 years of our lives sleeping, sleep is very often underestimated and we generally prefer to spend more money on new technology than on our health and quality of life. At Karibian Descanso, we offer the best we can to help you solve your sleep problems: our sleep sets. Our sole objective is to develop the best ranges of comfort for dream-filled nights. Remember that for complete happiness, you need the best sleep.

Welcome to the world of Dreams

IN QUALITY OF LIFE

# Our History

As of today, Karibian Descanso has major international projection, exporting to over 15 countries and possessing over 23,000m<sup>2</sup> of state of the art industrial facilities.

The human element also forms an essential part of the business, with over 120 employees.

**K**aribian Descanso, is a consolidated business leader in the field. A rich, varied array of comfort options have made this a powerful brand in the world of sleep for 20 years. As the fruit of inspiration, they offer only products of the best quality with regard to both materials and comfort and design, and always marked with different quality seals representing respect for the environment.

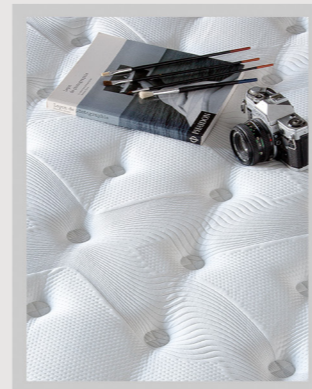

Based on carefully selected materials, these elements will still be our main premise in our day to day activity and in all of our product collections.

In this way, our essence will remain undisturbed and we will still be able to create sleeping sets for everyone while adapting to each and every person's needs. The company is moving forward with investments in development. It pays close attention to the latest technological innovations on the market and responds to current demands in the sector.

**A**t Karibian Descanso, we have designed a series of products which focus on rest, finding the perfect balance by using different structures, materials and finishing touches which improve daily rest, reaching a continuous renewal of the senses which will leave you feeling completely recharged at the start of each day.

Karibian, offer you diferents Series of products with more than thirty different sleeping options. Whatever your requirements or preferences, we have the perfect mattress for you and your family. In them, discover Cooler Technology, Breeze Technology, pocket springs mattress, junior mattress and adjustable mattress.

# The perfect combination

TRADITION, MATERIALS & TECHNOLOGY

**WORLD LEADER CERTIFICATE – OEKOTEX 2017OK1452 AITEX**

**A**lways committed to the environment and sustainability, at Karibian Descanso we use only the best quality natural materials that are guaranteed to have been sustainably and ethically sourced. All stages of production are carried out with an ethos of sustainability, which is integral to the organisational culture of the company.

Testing for toxic substances includes banned and legally regulated substances, chemical products considered as harmful for our health, as well as preventative measures. This certificate means better product safety and an internal quality control system in which the products tested may be checked against the Oeko-Tex brand by the manufacturers.

We hold the International Certificate OEKO-TEX Standard 100, Certificate number 2017OK1452 AITEX, which guarantees that all our products are toxin free.
