

Kettal presents materials for use in the workplace

The Terrain, Geometrics and Parallel fabric ranges, as well as the new Bela rope collection designed by Doshi Levien, are greatly resistant to abrasion, light and high temperatures. They are also fire retardant, making them ideal for corporate spaces.

The extensive variety of Kettal colours and textures, including rope, fabric, leather, aluminium, glaze, marble and wood allows for a completely personalised product.

Orgatec: from 23 to 27 October, 2018. Cologne
Hall 11.2 Stand B011
