

**EZPELETA. Manufacturer of comprehensive
terrace solutions**

More than 80 years of experience in designing and producing products to be enjoyed outdoors.

The Ezpeleta corporate group was founded in 1935 in Oñati, Gipuzkoa, and it was there that we first began producing umbrellas. Since then we have steadily expanded, not only in terms of our facilities, but also our extensive product range.

These days our main factory is located in Vila Nova de Cerveira, a strategic location right on the border between Galicia and Portugal.

Our business model is based on innovation and a continuous adaptation to the market demands. Our open communication and permanent connection to the business has enabled us to constantly evolve as a company, which in turn has helped us to meet our primary objective: to ensure the satisfaction of our customers.

Production of all the elements for a terrace.

Here at Ezpeleta we boast extensive expertise in three main technological processes: textile production, metalwork and plastic injection, and we use these processes to produce our outdoor furniture, parasols and umbrellas. Our products are distributed in the five continents, going on to create unique, functional, long lasting, distinct and environmentally friendly, contemporary spaces.

Thanks to our extensive product range our customers can furnish their whole terrace without having to use any other suppliers. This means that they no longer face the complicated task of having to try and match the colours between the different pieces of furniture.

Providing professional advice from start to finish, managing the whole process.

Ezpeleta offers an extensive range of customization options, providing professional advice from start to finish and managing the whole process. The result is effective brand communication and a fast and high return on investment.
