systemtronic
datasheet SECOND TREE

General description:

The coat rack second tree is the abstraction and simplification of the nature forms, conserving the oak-tree's soul and warmth. It stands out for its fine finish, following Systemtronic's quality philosophy, and the contrast that provides combining noble material with steel.
Designer: Pablo Gironés

Maintenance:

-Wood:
We recommend using a cloth or cleaning products for natural wood. Avoid using products containing solvents and/or alcohol.

-Polyester Paint:
For dry dirt (dust), use a damp cloth. For greasy/oily stains (fingerprints), wipe with a sponge with water and dishwashing liquid.
Rinse with a damp cloth. Avoid using products containing solvents and/or pure ethyl alcohol.

-Aluminium-metal-glass-melamine-plastic:
We recommend using normal cleaning products for delicate surfaces. Alcohol, solvents and abrasive agents must be avoided.

Sustainability:

The used paints do not contain solvents, do not consume water and do not generate emissions or waste. The result is a lower environmental impact.

Assembly:
