This modular kitchen structure offers infinite solutions. An aluminium supporting frame can be teamed with a number of stoneware modules in various combinations whilst maintaining its authentic linear design.

This design features clean, smooth surfaces, with no corners, for easy cleaning and maintenance.

It is available in two types of stoneware and two Iroko wood finishes for the doors. The modular aluminium structure comes in black only.

Along with basic kitchen functions, it has a gas barbecue and can include several burners with a support for a wok. It can also include a bar.
