Alcor Collection
Estudi Manel Molina

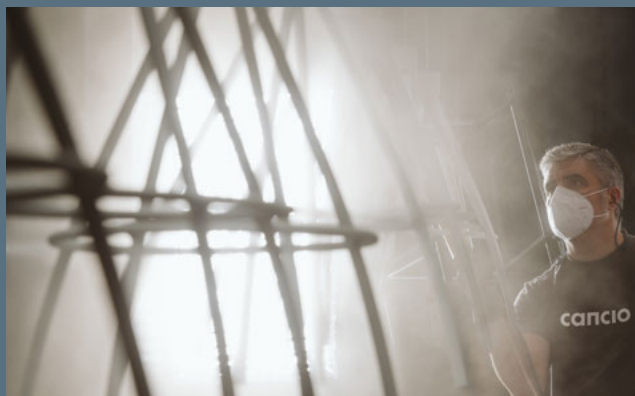

Past. Present. Future.

Cancio is the result of a family journey that began in 1959 with our grandfather Gregorio. We started as a company dedicated to the design and production of wooden furniture. Over the years, our capabilities, facilities, and manufacturing expertise have expanded to include other materials such as metal, glass, and ceramic. Today, the story of Cancio continues with the younger generations of the family, who, through our creations, aspire to build a better world by turning spaces into personal and appealing places to live, work, and connect.

Alcor Collection

Designed by Estudi Manel Molina, the Alcor collection is a true example of simplicity and versatility. A multi functional range of chairs, stools, and tables that adapts to all types of spaces and uses. The result is a highly functional system, aesthetically coherent and rich in subtle details. A product that is both comfortable and durable, while conveying an apparent image of simplicity.

Alcor chair with wooden legs

The wooden Alcor chair emerges as a modern version of the traditional Scandinavian dining chair. The seat, made of ash solid wood, allows for two backrest options, both crafted from high-quality, pressure-molded plywood. Both versions provide an enveloping support that ensures comfort and sturdiness.

Alcor table

The Alcor table stands out for its clean lines and versatility. It features a plywood tabletop and four solid ash wood legs. It is available with either a rectangular or round tabletop and offers two leg angle options to choose from.

Alcor chair with metal legs

The Alcor chair is available with two metal leg versions: four straight legs or a blade-base. When these options are combined with the variety of shells and finishes (epoxy colors for metal parts, different wood tones and upholsteries), the result is a chair system that is highly adaptable to all kinds of spaces and uses.

Alcor colors

In our constant search for new solutions, we present a new range of epoxy colors, applicable to all products in the Alcor collection.

Caliza, curry, teja, oliva and cobalto : on-trend shades that turn small details into big changes.

Alcor stools

The seat of the Alcor stools, just like that of the chair, is made of solid ash wood and allows for different leg configurations.

There are two metal leg options (stackable with four cylindrical steel legs or with a blade-base), and one version with four solid wood legs.

Alcor stools are available in two seat heights: bar height and kitchen counter height.

Taburete Alcor patas de metal

The Alcor stool offers two metal leg versions: four straight legs or a blade-base, and comes in two seat heights: 65 and 75 centimeters. When these variants are combined with different shell and finish options (epoxy colors for the metal parts, various woods and upholsteries), the result is a stool system that is highly adaptable to all kinds of spaces and uses.

*COMING SOON

Alcor chair Wood legs**Backrest:**

- Ash veneer on 8 mm thick plywood
- Varnished with a silk semi-matte finish.
- Optional armrests.
- Finishes: stained ash and black lacquered.

Seat:

- 32 mm solid ash wood seat.
- Varnished with a silk semi-matte finish.
- Optional upholstered cushion, medium-density polyurethane foam, 18 mm thick.
- Finishes: stained ash or black lacquered and upholstery.

Legs:

- 4 turned legs made from solid ash wood.
- Varnished with a silk semi-matte finish.
- Finishes: stained ash and black lacquered.

Alcor chair Metal legs**Backrest:**

- Ash veneer on 8 mm thick plywood
- Varnished with a silk semi-matte finish.
- Optional armrests.
- Finishes: stained ash and black lacquered.

Seat:

- 32 mm solid ash wood seat.
- Varnished with a silk semi-matte finish.
- Optional upholstered cushion, medium-density polyurethane foam, 18 mm thick.
- Finishes: stained ash or black lacquered and upholstery.

Legs:

- Legs made of cold-rolled steel cylindrical tubes, 16 mm in diameter and 2 mm thick.
- Finished with epoxy lacquered steel, powder-coated for increased resistance to wear, impacts, oxidation, and stains.
- Stackable up to 4 units.

Alcor chair Aspa legs**Backrest:**

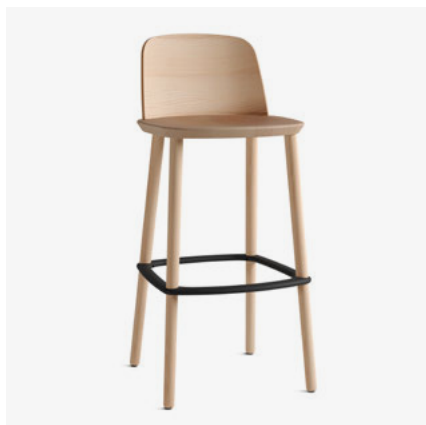

- Ash veneer on 8 mm thick plywood
- Varnished with a silk semi-matte finish.
- Optional armrests.
- Finishes: stained ash and black lacquered.

Seat:

- 32 mm solid ash wood seat.
- Varnished with a silk semi-matte finish.
- Optional upholstered cushion, medium-density polyurethane foam, 18 mm thick.
- Finishes: stained ash or black lacquered and upholstery.

Legs:

- Legs made of cold-rolled steel oval tube, with a 40×20 mm section and 1.5 mm thickness.
- Finished with epoxy lacquered steel, powder-coated to ensure greater resistance to friction, impact, oxidation, and stains.

Alcor Stool Wood legs**Backrest:**

- Ash veneer on 8 mm thick plywood
- Varnished with a silk semi-matte finish.
- Optional armrests.
- Finishes: stained ash and black lacquered.

Seat:

- 32 mm solid ash wood seat.
- Varnished with a silk semi-matte finish.
- Optional upholstered cushion, medium-density polyurethane foam, 18 mm thick.
- Finishes: stained ash or black lacquered and upholstery.

Legs:

- 4 turned legs made from solid ash wood.
 - Varnished with a silk semi-matte finish.
- Footrest in cast aluminum, epoxy-lacquered with a powder-coated finish providing enhanced resistance to friction, impact, oxidation, and stains.
- Finishes: stained ash and black lacquered.

Alcor Stool Metal legs**Backrest:**

- Ash veneer on 8 mm thick plywood
- Varnished with a silk semi-matte finish.
- Optional armrests.
- Finishes: stained ash and black lacquered.

Seat:

Seat:

- 32 mm solid ash wood seat.
- Varnished with a silk semi-matte finish.
- Optional upholstered cushion, medium-density polyurethane foam, 18 mm thick.
- Finishes: stained ash or black lacquered and upholstery.

Legs:

- Legs made of cold-rolled steel oval tube, with a 30×15 mm section and 1.5 mm thickness.
- Finished with epoxy lacquered steel, powder-coated to ensure greater resistance to friction, impact, oxidation, and stains.

Alcor table Rectangular 4 legs**Tabletop:**

- Ash veneer on 30 mm thick plywood
- Varnished with a silk semi-matte finish.
- Finishes: stained ash and black lacquered.

Legs:

- Solid ash wood with an oval section of 90×50 mm.
- Varnished with a silk semi-matte finish.
- Finishes: stained ash and black lacquered.

Product dimensions: 160×90, 160×100, 180×100, 200×100, 220×100 y 240×100 cm

Alcor table Rectangular leg A**Tabletop:**

- Ash veneer on 30 mm thick plywood
- Varnished with a silk semi-matte finish.
- Finishes: stained ash and black lacquered.

Legs:

- Solid ash wood with an oval section of 90×50 mm.
- Varnished with a silk semi-matte finish.
- Finishes: stained ash and black lacquered.

Product dimensions: 160×90, 160×100, 180×100, 200×100, 220×100 y 240×100 cm

Alcor table Round shape**Tabletop:**

- Ash veneer on 30 mm thick plywood
- Varnished with a silk semi-matte finish.
- Finishes: stained ash and black lacquered.

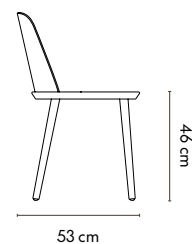

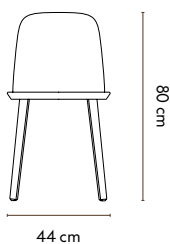

Legs:

- Solid ash wood with an oval section of 90×50 mm.
- Varnished with a silk semi-matte finish.
- Finishes: stained ash and black lacquered.

Características

- Garantiza un acabado óptimo sobre cualquier superficie metálica. Aporta mayor resistencia a la fricción, los golpes, la oxidación y las manchas.
- No emite gases tóxicos, con este tipo de pintura no se daña el medio ambiente.
- Ofrece un nivel muy elevado de resistencia a la luz ultravioleta a la luz solar, gran estabilidad en los colores al paso del tiempo.

Proceso de pintura

- Las piezas metálicas se limpian con elementos detergentes, la superficie recibe un baño fosfatado que mejora su resistencia al óxido y la adherencia de la pintura.
- Limpias, fosfatadas y desmineralizadas, las piezas pasan por un horno que las seca y calienta para recibir en las mejores condiciones la aplicación del polvo que se realiza mediante dos grupos de robots.
- Finalizada la aplicación del polvo, las piezas entran en el túnel de polimerización en el que reciben una radiación térmica consiguiendo así la polimerización y adherencia de la capa de pintura.

Cuidados y Limpieza

- Usar un paño de microfibra con agua y jabón neutro. Evitar productos de limpieza abrasivos.
- Secar con un paño de algodón.

The history of Cancio cannot be understood without the wood. From our beginnings, the culture linked to wood production has been part of our company's DNA. We have the most advanced technology, which together with the right dose of know-how that this raw material requires, allow us to manufacture a product with the highest Quality Standards.

Características

- Noble, warm and ecological raw material that comes from sustainable managed European forests.

Certificates:

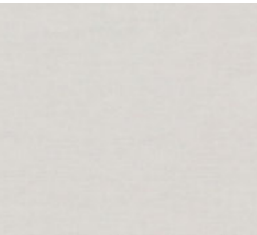

- The use of water-based dyes in the dyeing process has minimal impact on the environment as they do not emit toxic fumes or pollutants.
- Lacquers based on polyurethane resins that allow maximum resistance and durability of the product once finished.

Cares & cleaning

- Use a microfiber cloth to remove dust from the surface.
- Use a soft cloth or sponge, warm water and neutral soap, then dry the surface with a clean, dry cloth or absorbent paper.
