

2026

EZPELETA. Complete furniture manufacturer

PRESS RELEASE
03/2026

+ 90 years of history and sustainable innovation

With more than 90 years of history, Ezpeleta has established itself as a leading family company in the design and manufacture of furniture. Experts in creating functional, high quality and appealing designs, they stand out for offering resistant and sustainable products, capable of adapting to any outdoor and indoor space.

Thanks to the use of quality materials, a skilled workforce, collaboration with local suppliers and a firm commitment to sustainability, Ezpeleta continues to grow its international presence, now reaching 90 countries around the world.

Since 1935 manufacturing products to be enjoyed

Ezpeleta business group was founded in 1935 in Oñati, Gipuzkoa (Spain). It was there that the **handcrafting of umbrellas began**, this being the only product line at that time.

Since then, the company has not stopped growing, not only in terms of facilities, but also in product ranges and business lines, until it became a **manufacturer of integral spaces**.

Today, the **main factory** (operations centre) is located in **Vila Nova de Cerveira** (Portugal), a strategic location on the border between Galicia and Portugal. Ezpeleta's business model is based on innovation and continuous adaptation to market demands, which has allowed them to constantly evolve as a company to meet their main objective: to guarantee customer satisfaction through **a complete range of quality outdoor and indoor furniture**.

Manufacturers of integral spaces

Ezpeleta's team has an extensive experience in **three technologies**: textile cutting and sewing, metal carpentry and plastic injection. These technologies are used to manufacture its entire range of products: **furniture, parasols and umbrellas**.

Ezpeleta **distributes on five continents**, creating unique spaces that stand out for their **functional design, durability and commitment to the environment**.

Its **extensive catalogue** allows its customers to furnish different spots without having to resort to different suppliers. Furthermore, Ezpeleta's product lines are based on the same raw materials and colour ranges, thus **facilitating the creation of cohesive and harmonious furniture sets**.

Professional advice from start to finish, managing the whole process.

Ezpeleta offers a wide range of options for customising its products to suit the needs of each customer, always under professional advice that accompanies and facilitates the entire process.

The result: customers satisfied with the product and with the service, who rely on Ezpeleta year after year.
