COMPANY

SUSTAINABILITY, DESIGN, AND COMFORT.

Ormo's was founded in 2003 with the idea of offering its customers a quality product covering a broad market spectrum, from a traditional classic line to modern, avant-garde designs. The idea is to offer the possibility of personalizing each of our pieces and adapting to our customers' needs.

We use top-quality raw materials which, in the hands of our skilled artisans, result in an exceptional balance between quality and value.

The attention to detail, refined lines, and impeccable finishes—combined with our commitment to on-time delivery—allow us to grow every day through the trust of our clients.

PREMIUM QUALITY

- Structure crafted entirely from premium-quality pine wood.
- Base upholstered with certified polyurethane foam.
- Suspension system using reinforced zig-zag springs with NEA elastic webbing for enhanced durability and comfort.
- Seat cushions made from high-resilience (HR) foam, density 30, wrapped in fiber — available with a feather and shredded fiber blend or with HR foam and a viscoelastic layer.
- Backrest and decorative cushions filled with top-grade flocking and featuring removable covers for easy maintenance.
- Legs available in solid beech wood or metal, according to design specifications.

At Ormo's, we offer our clients a wide selection of fabrics from the most prestigious international brands, along with the option to provide their own material for upholstery.

SPECIAL COLLECTIONS

We create more than sofas.
We design unique pieces of timeless beauty.

Each year Ormo's launches an unique collaboration one top interior designer, such as Pepe Leal, Alejandra Pombo, Patricia Bustos, and Erico Navazo.

Each professional brings a distinctive vision, merging creativity and functionality to create pieces that define spaces.

These collections are designed to exceed both aesthetic and functional expectations, becoming a centerpiece of contemporary interior design.
