

MAGNA

Surrounded by Comfort

MAGNA is born to be timeless. Inspired by the spirit of the Mediterranean and the philosophy of *dolce far niente*, this collection invites you to slow down and enjoy a deep, immersive resting experience.

Its generous proportions and welcoming design create a space of visual and sensory comfort where the body naturally relaxes. MAGNA embraces rest with a broad and serene presence, where form, scale, and comfort find their perfect balance.

Designed to transition effortlessly between indoor and outdoor settings, the collection adapts to a variety of environments thanks to its wide range of fabrics and colors, allowing each piece to be tailored to its space and use.

KEY POINTS:

- **Enveloping volume:** Generously proportioned cushions create a “deep embrace,” adapting to real resting ergonomics and providing comfort for all body types.
- **Structural precision:** A large-diameter metal base provides the scale and stability needed to support the piece’s grandeur, balancing visual lightness with strength.

- **Finishes:** A wide range of fabrics and combinations allows the collection to be configured for indoor or outdoor use, adapting to different spaces and projects.

About ILMIODESIGN

ILMIODESIGN is a creative studio founded in 2009 by Italians Andrea Spada and Michele Corbani, specializing in

comprehensive, tailor-made design projects. It collaborates with major hotel groups and real estate developers, with notable works in hotels, luxury residential projects, and iconic spaces such as the Paradiso Ibiza Art Hotel and the Tatel restaurants.

Recent projects include the transformation of Canfranc International Station into a 5-star hotel (Royal Hideaway), as well as renovations of hotels in Granada and Benidorm. The studio also develops international projects, such as a hotel in New York, and collaborates in product design with brands like ISIMAR, Beltá Frajumar, B.Lux, and Estiluz.
